Hi Tammy,

Please update the following website with the attached updated inventory lists. I would like to change the first paragraph to have different links for vessels removed and not yet removed. Can you make the excel files into PDFs before posting them?

http://www.dnr.wa.gov/htdocs/aqr/derelect_vessel/inventorypriorities.html

Click Here to see an inventory list of the derelict vessels that have been reported but not yet removed. Click Here to see an inventory list of the derelict vessels that have been reported and removed.

Thanks,
Melissa
